

10539 12V Trigger Box Electric-Screen Controller

- Rugged Case: size—143mmx80mmx30mm
: colour— white

Opmerkingen:

1. Trigger level can be from 4V_{DC(min)} to 20V_{DC(max)}. 12V_{DC} is the output voltage level for most projectors.
2. The Electric-Screen Controller can also operate 120VAC Electric-Screen if 120VAC is used instead of 240VAC.
3. The rated Electric-Screen switching current is 3A/250VAC
4. The AC-DC 5V power-pack is supplied.
5. **The trigger requires two power supplies, one using the AC-DC 5 power-pack and one using a normal power cable to mains .**
