Universal Ceiling Lift for digital projectors

MEDIUM now offers a ceiling lift for the aesthetic felicitous permanent installation of different digital projectors.

This newly developed ceiling lift is suitable for all current projector sizes up to the portable category and easy to use thanks to the supplied infrared remote control.

Key features of the ceiling lift:

- Dimensions: see graphic
- Maximum load: 20 kg
- Space saving mounting height of only 25 cm (incl. small projector), ill. 1
- Lift weight of only 8 kg enables the installation by one person
- Aesthetic and difficult to steal due to ceiling mounting
- The projection height can exactly be programmed and if required changed individually with the supplied programming unit, ill. 2
- Convenient infrared control of the lift
- Extremely safe due to a wearfree quiet scissors joint mechanism, ill. 3
- For universal use of all current projectors up to portable category
- Optimum placement of projector thanks to the movable support points, ill. 4

- Secure mounting due to belt
- Integrated cable duct for all current projector cables
- Ceiling cut-out can be integrated into the ceiling lift without any further accessories
- TÜV/GS/CE-certified

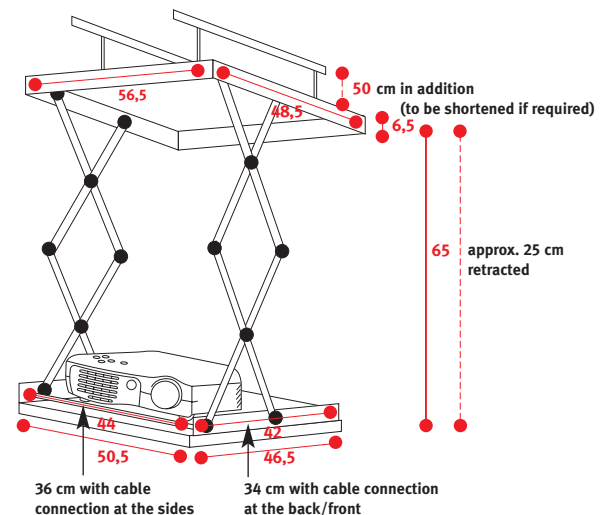

Suitable for

Conference rooms, training rooms, showrooms

Delivery standard:

- Ceiling lift
- Ceiling mounting plates
- Programming unit to adjust the height
- Infrared remote control/infrared receiver
- Manual

Code No. 22400

The ceiling list is TÜV/GS/CE-certified
